ADATTATORI – PROLUNGHE

Adapter – Verlängerungen | Adaptors – Extensions

Realizzati con acciai di elevate caratteristiche fisico-meccaniche, gli adattatori e le prolunghe KSV vengono proposti in un assortimento completo in grado di soddisfare ogni esigenza di connessione tra avvitatore e utensile. Conformi alle norme DIN 3123 e 7428, gli stessi possono essere dimensionati per adattarsi a qualsiasi vostra esigenza.

Die Adapter und Verlängerungen von KSV sind aus hochwertigsten Materialien hergestellt, sorgfältig wärmebehandelt und genügen somit höchsten mechanischen Ansprüchen. Auch in dieser Produktgruppe bieten wir Ihnen ein sehr breites Programm und können bei entsprechenden Stückzahlen auch individuelle Kundenwünsche erfüllen. Wir fertigen unsere Adapter und Verlängerungen entsprechend der DIN 3123 und 7428.

The KSV adaptors and extensions are made of steel with high physical-mechanical characteristics; through the wide range of these adaptors and extensions we are able to satisfy each requirement concerning the connection between the screwdriver and the tool. The adaptors and extensions are in conformity with DIN 3123 and 7428 and their dimension can be modified according to your request.
